Date 30 August 2021

Our Ref: 2021/597328

Dear Resident,

NOTIFICATION: STAGE 2 CAREEL CREEK REHABILITATION WORKS

Northern Beaches Council would like to advise you that further rehabilitation works for Careel Creek are planned to commence on 13 September 2021. The works have been joint funded by NSW Government and Northern Beaches Council and will continue downstream from the previous work completed by Council earlier this year.

Sediment and vegetation will be mechanically removed from the creek channel in the area shown in Figure 1. Weeds growing on the banks will be removed and replaced with native species through an ongoing riparian regeneration and weed management program.

A temporary stockpiling and dewatering area will likely be established at the location marked in Figure 1 and remediated after the works.

The works are expected to take around 4 weeks to complete, weather permitting. Appropriate site management, work practices and traffic management will be in place to ensure public safety and minimise disturbance to residents such as noise or access to adjoining public reserves.

Please contact Jason Ruszczyk, Senior Environment Officer – Catchments, on (02) 8495 6707 if you would like additional information about these works.

Yours faithfully,

Jason Ruszczyk
Senior Environment Officer – Catchments
